

Envision a world where data scientists can regularly deploy AI and machine learning projects into production at scale, quickly delivering insights into the hands of decision-makers. How would that impact your business?

Anaconda Enterprise supports your organization no matter the size, easily scaling from a single user on one laptop to thousands of machines with failover controls and security built in. No headaches, no IT nightmares.

## BENEFITS AND FEATURES

### DEVELOP

- Get started with our collection of core ML/AI tools and frameworks
- Use open source tools securely behind your company's firewall
- Use customizable sample projects to get started quickly
- Easily ingest data from diverse data sources and sizes
- Create Anaconda installers with custom packages for Windows, macOS, and Linux

### COLLABORATE

- Quickly and easily share notebooks with others, using a preferred IDE
- Grant or restrict access to individual notebooks by user or group
- Easily distribute your own proprietary packages to share code, algorithms, and models
- Stay on track with automated version control

### GOVERN

- Centralized development environment with secure open source supply chain, access control, versioning, and auditing
- Curate a private Python and R package repository
- Whitelist and blacklist by license type and version
- Create custom profiles to share and efficiently allocate compute resources

### DEPLOY

- Securely deploy notebooks, REST APIs, dashboards, and models with a single click
- Select compute resources and schedule intensive workloads like model training
- Run anywhere: on bare metal servers in air-gapped environments or in major cloud environments

## BRIDGING THE DEVELOPER/ DATA SCIENTIST AND IT GAP

Anaconda Enterprise enables developers and data scientists to access cutting-edge technology and use their preferred tools and packages without sacrificing security through:

- Policy management and enforcement
- Role-based access control and usage controls
- Comprehensive audit trails

## PROFESSIONAL SERVICES

When you're ready to expand your data science and machine learning practice, Anaconda offers an expert suite of services to ensure your success. Our support, services and training will ensure that you get up and running quickly - and stay that way.

### ENTERPRISE SUPPORT

- Standard and Premium packages available
- 24x5 availability, SLAs based on issue severity
- Documentation, how-to-guides, and support bulletins
- Premium Support includes names CSM, onsite training

### ANACONDA SERVICES

- Certified installation and integration, scoped for your environment
- Custom visualization development and performance tuning
- Package creation and deployment

### ANACONDA TRAINING

- Admin and data science trainings from Anaconda experts
- Curriculum designed for your unique requirements
- In-person and virtual approaches available

***“Manual deployment was painful and complex.  
Anaconda Enterprise took deployment time from 6 weeks  
to no more than 6 minutes, with just one click.”***

— Fortune 500 Financial Services Company

With more than 16 million users, Anaconda is the world's most popular data science platform and the foundation of modern machine learning. Our flagship product, Anaconda Enterprise, delivers data science and machine learning at speed and scale, unleashing the full potential of our customers' data science and machine learning initiatives.
